

# HOLEMASTER™ HOLE CUTTER OPERATING INSTRUCTIONS

PART NUMBER - 28350

## INSTRUCTIONS

1. Place Hole Cutter on green where new hole is desired. Pull pins on the side of hole cutter and slide handle down.
2. Using a rubber mallet, tap down Hole Cutter shell to desired depth on depth gauge.
3. To remove turf, twist Hole Cutter to insure a full circular cut.
4. Remove Hole Cutter from ground and turf should remain in shell.
5. Place Hole Cutter shell into a pre-existing hole.
6. Pull the pins on both sides of the Hole Cutter handle, stand on the base and use the handle to pull the shell out of the ground. The plug will remain in the hole.
7. Remove Hole Cutter.
8. Detail new plug.
